My experience before this class was mainly me experimenting and figuring it out on my own. I was more familiar with Adobe Illustrator and InDesign since I took Comm 130 Visual Media a couple semesters ago. Photoshop was the hardest for me to learn and figure out.

Past Photos

Light - Motion

With this assignment I learned a lot about depth of field. I became familiar with the aperture setting on my camera. One of my favorite pictures that I have taken this semester is of Rigby, Idaho, one of my favorite little Idaho towns (bottom left).

Focus - Depth

Perspective of 12

I liked this assignment a lot. It was great to think out of the box and think of different views and perspectives on a subject. Focusing on composition gave me get better results and I was happier with my photos.

Up Close and Personal

Discover a whole new world in miniature! Sit down in a field, or near a pond and start looking at your immediate surrounding in a whole new way. Get close and think of framing a much smaller image.

Detail in everyday things.

Portraits

Bannack Portraits

It was a little cold at Bannack Ghost Town, but it was definitely loads of fun! The portraits I took were some of my favorite pictures that I took that day. I mastered the manual settings on my camera.

Top 5
These are two of my top five that I haven't put in this book yet. The picture on the left was from Bannack and the picture on the right is from the "Up Close and Personal" assignment.

I'm a sophomore at BYU-Idaho. I'm from Cumming, Georgia, but my family recently moved to Houston, Texas. My major is in communications with an emphasis in video production. I hope to have my own video business where I film and edit events like weddings, travel, lifestyle, etc. Videography, video editing, photography, and travel are a few of my favorite things.

My favorite thing about photography is capturing the moment. I love to take pictures of landscapes and of people. I have grown so much as a photographer in this class. I've learned so much more about my camera settings, capturing the right shot, and editing.

Photography, Video, Design.
